# 1. INTRODUCTION

The Service Delivery and Budget Implementation Plan (SDBIP) gives effect to the municipality's IDP and budget.

The SDBIP is a layered plan, with the top layer comprising the key performance indicators and service delivery targets, and how these are assigned to top management. It expresses the Municipality's objectives in quantifiable outcomes to be implemented from 1 July 2025 to 30 June 2026.

The SDBIP serves as a "contract" between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration in the applicable financial year. It provides the link between the mayor, the council (executive) and the administration, and facilitates the process for holding management accountable for its performance. It is therefore a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers, and community to monitor the municipality's performance on a quarterly basis. The SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the implementation of the budget, the execution of projects, the performance of senior management and the achievement of the strategic objectives set by council.

### 2. LEGISLATIVE FRAMEWORK

The Municipal Finance Management Act No. 56 of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires that municipalities must prepare a service delivery budget implementation plan (SDBIP) indicating how the budget and the strategic objectives of Council will be implemented. The SDBIP is prepared in terms of Section 53(1)(c)(ii) of the Municipal Finance Management (MFMA), National Treasury MFMA Circular No. 13 and the Budgeting and Reporting Regulation.

The Top Layer of the SDBIP is made up of the following components:

- One-year detailed plan, with a three-year capital plan
- Monthly projection of revenue to be collected for each Source (Expected Revenue to be collected)
- Monthly projects of expenditure (operating and capital) and revenue for each vote (S71 format)
- Quarterly projects of Services Delivery Targets and performance indicators for each vote.
   (Non-financial measurable performance objectives in the form of targets and indicators)
- Capital works plan broken down by ward over three years

### 3. FACTORS CONSIDERED WITH COMPILATION

The IDP is considered as the 5-year strategic plan for the municipality and therefore provides an outline of Witzenberg Municipality's vision, mission, objectives, and operational and service delivery indicators that are realistic and attainable.

The Top Layer SDBIP was drafted through a one-on-one consultation with the Municipal Manager and all the directors. After the completion of the draft Top Layer SDBIP, the Municipal Manager had one on one sessions with his directors to finalise the Top Layer SDBIP. The following were considered during the development of the SDBIP:

- Alignment with the IDP, National KPA's, Municipal KPA's and IDP objectives
- Alignment with the budget
- Oversight Committee Report on the Annual Report of 2023/24
- Annual Report of 2023/24
- The risks identified by the Chief Risk Officer during the municipal risk analysis.
- Areas to be addressed and root causes of the Auditor-General management letter
   COMAFS as well as the risks identified during the audit of the 2023/24 Annual Report
- Mid-Year Performance Report (Section 72) for 2024/25

### 4. MFMA CIRCULAR 88 NATIONAL INDICATORS

To be implemented as a pilot process in the 2021/22 to 2024/25 financial years, intermediate cities, district, and local municipalities will not be required to incorporate the indicators in their existing performance indicator tables in the IDP and SDBIP. Instead, these indicators should find expression in a dedicated Annexure to the IDP and SDBIP which clearly indicates the MFMA Circular No. 88 indicators applicable to the municipality at Tier 1 and 2 levels of readiness. For this pilot process, the applicable indicators as included in the Annexures will be monitored and reported on, on a quarterly and annual basis, to the DCoG and the relevant provincial. No reporting in the MSA section 46 statutory annual performance report (APR) will be required. This "parallel" pilot process will allow and encourage municipalities to plan, implement and report on the MFMA Circular No. 88 indicators, without limiting their statutory performance planning and reporting in fear of audit findings before they have not adequately institutionalized the process.

### **5. STRATEGIC ALIGNMENT**

### **VISION**

### A MUNICIPALITY THAT CARES FOR ITS COMMUNITY, CREATING GROWTH AND OPPORTUNITIES.

### **MISSION**

# THE MUNICIPALITY IS COMMITTED TO IMPROVE THE QUALITY OF LIFE OF THE COMMUNITY BY:

- · Providing & maintaining affordable services
- Promoting Social- & Economic Development
- The Effective & Efficient Use of Resources
- Effective Stakeholder & Community Participation

# KEY PERFORMANCE AREAS

#### STRATEGIC OBECTIVES

### Essential Services

Sustainable provision and maintenance of basic infrastructure

Provide for the needs of Informal Settlements through improved services

### Governance

Support Institutional Transformation and Development

#### Ensure Financial Viability

To maintain and strengthen relations with international- & intergovernmental partners as well as the local community through the creation of participative structures.

# Communal Services

Provide and Maintain Facilities and Environment that make citizens feel at home

Socio-Economic Support Support the poor & vulnerable through programmes & policy

Create an enabling environment to support local economy

# 6. NON-FINANCIAL COMPONENT

### a. Key Performance Indicators

# 9. ANNEXURES

### a. KPI Definitions

Ref	Key Performance Indicator	Definitions
WS1.11a	Number of new formal sewer connections meeting minimum standards	The total number of new sewer connections (defined as connections to a flush toilet connected to the sewerage system or a septic tank or a VIP toilet) made by the municipality. (1) Number of new sewer connections to consumer units (Exclude informal settlements - WS1.11b)
WS2.11a	Number of new formal water connections meeting minimum standards	Total number of new water connections meeting minimum standards (supply of water is Piped (tap) water inside dwelling/institution and piped (tap) water inside yard (formal erf). (1) Number of new water connections to piped (tap) water. Excludes informal settlements - WS2.11b)
WS4.1	Percentage of drinking water samples complying to SANS241.	The percentage of water samples measured that comply with the SANS 241 requirements over a 12-month period for the defined parameters. See the SANS 241 requirements for a detailed breakdown of the various tests involved and the associated standard limits for application. ((1) Number of water sample tests that complied with SANS 241 requirements / (2) Total number of water sample tests undertaken).
EE1.11a	Number of formal residential dwellings provided with a new connection to mains electricity supply by the municipality	The number of new formal residential electricity connections to dwellings energised by the municipality. (1) Number of new residential supply points energised by the municipality. (Excludes informal areas - EE1.11b)
FinInc28	Number of formal residential properties for which refuse is removed once per week, and which are billed for refuse removal as at period end.	The number of residential properties that have access to the service according to the number of properties billed for the service on the financial system.
WS5.1	Percentage of non-revenue water (sum of un-billed authorised consumption such as informal settlements, recreational areas and apparent & real losses)	Non-revenue water is defined as the sum of unbilled authorized consumption, apparent losses (unbilled unauthorised consumption and meter inaccuracies) and real losses (from transmission mains, storage facilities, distribution mains or service connections). (((1) Number of Kilolitres Water Purchased or Purified - (2) Number of Kilolitres Water Sold) / (1) Number of Kilolitres Water Purchased or Purified)
EE4.4	Percentage total electricity losses	Electricity losses have two components: technical and non-technical. Technical losses occur naturally and consist mainly of power dissipation in electricity system components such as transmission and distribution lines, transformers, and measurement systems. Non-technical losses are caused by actions external to the power system and consist primarily of electricity theft, faulty or inaccurate meters, and errors in accounting and record-keeping. Losses is a measure of unaccounted for energy. Thus, non-payment is not included as losses. (((1) Electricity Purchases in kWh - (2) Electricity sales in kWh)) / (1) Electricity Purchases in kWh)

Ref	Key Performance Indicator	Definitions
TR6.12	Percentage of surfaced municipal road lanes which has been resurfaced and resealed	The distance of surfaced municipal road lanes (class 3-5) in kilometres which has been resurfaced and resealed in relation to the total road lane length. A lane is part of a carriageway that is designated to be used by a single line of vehicles to control and guide drivers and reduce traffic conflicts. Lane widths may vary in width from 3.1m at their narrowest, to 5.5m lanes in higher-order mixed-usage streets. Total municipal road length is measured on a per lane basis, so a road that is four-lanes wide for 1 km has a total network length of 4kms for the purpose of this indicator. ((1) Kilometres of municipal road lanes resurfaced and resealed / (2) Kilometres of surfaced municipal road lanes)
TecDir2	Number of subsidised serviced sites developed.	A housing opportunity is incremental access to and or delivery of one of the following Housing products: Incremental Housing which provides a serviced site with or without tenure. A serviced site is being defined as a demarcated site with access to water & sanitation services located adjacent to a road.
WS1.11b	Number of new informal sewer connections meeting minimum standards	Total number of new sanitation connections to communal toilet facilities meeting basic sanitation standards made by the municipality. (2) Number of new sewer connections to communal toilet facilities. (only informal areas)
WS2.11b	Number of new informal water connections meeting minimum standards	Total number of new water connections to public/communal taps made by the municipality. (2) Number of new water connections to public/communal facilities. (only informal areas).
EE1.11b	Number of informal residential dwellings provided with a new connection to mains electricity supply by the municipality	Number of new informal residential electricity connections to dwellings energised by the municipality. Only informal areas.
TecRef31	Percentage of households in demarcated informal areas with access to a periodic solid waste removal or a skip for household waste.	This indicator reflects the percentage of households in demarcated informal areas with access to a to a periodic solid waste removal or a skip for household waste. Access are being defined as households within 200m of a periodic waste pick-up route or skip for household waste. Certain skips may however have been vandalised or removed after provision. Excluding areas that was illegally occupied and not part of the municipalities planning initiatives. Proxy for National KPI.
CorpHR13	Percentage budget spent on implementation of Workplace Skills Plan.	A Workplace Skills Plan is a document that outlines the planned education, training and development interventions for the organisation. Its purpose is to formally plan and allocate the budget for appropriate training interventions which will address the needs arising out of Local Governments' Skills Sector Plan, the municipality's strategic requirements as contained in the IDP and the individual departmental staffing strategies and individual employees' PDP's. The WSP shall also take into account the Employment Equity Plan, ensuring incorporation of relevant developmental equity interventions into the plan. Kpi measures percentage expenditure of vote allocated towards training needs as arise from WSP. Proxy for National KPI.

Ref	Key Performance Indicator	Definitions
CorpHR12	Report on percentage of people from employment equity target groups employed in the three highest levels of management in the municipality.	Quarterly reports on the percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the municipality's approved employment equity plan. Quarterly report submitted to Municipal Manager. Proxy for National Performance Indicator.
GG1.21	Staff vacancy rate	The number of unfilled posts in the municipal organisational structure as a percentage of the total number of employee posts in the municipality's organisational structure. The unfilled posts are inclusive of temporary and contract positions that appear on the municipality's approved organisational structure. They are exclusive of unfunded vacant positions on the municipality's approved organisational structure. (((1) The number of budgeted employee posts on the approved organisational structure - (2) The number of actual employees in the municipality) / (1) The number of budgeted employee posts on the approved organisational structure)
FinFAdm10	Financial viability expressed as Debt-Coverage ratio	This indicator measures debt coverage as (total operating revenue – operating grants received) / debt service payments due within the year. This means the municipality is able to cover its debt service payments from operating revenue excluding grants number of times. Proxy for National KPI.
FinFAdm11	Financial viability expressed outstanding service debtors	These indicator measure service debtors to revenue (total outstanding service debtors / revenue received for services). This means that a % of revenue in the SFP is still outstanding as at year end. Proxy for National KPI.
FM7.12	Collection rate ratio	The ratio measures the revenue collection level of a municipality. It considers the level of increase or decrease of gross debtors relative to annual billed revenue. In addition, in order to determine the real collection rate bad debts written-off is taken into consideration. ((1) Gross Debtors Opening Balance + (2) Billed Revenue – (3) Gross Debtors Closing Balance - (4) Bad Debts Written Off) / (2) Billed Revenue
FM3.11	Cash/Cost coverage ratio	The ratio tracks how long it can take the municipality to pay at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue, during that month. (((1) Cash and Cash Equivalents - (2) Unspent Conditional Grants - (3) Overdraft) + (4) Short Term Investment) / (5) Monthly Fixed Operational Expenditure excluding (Depreciation, Amortisation, Provision for Bad Debts, Impairment and Loss on Disposal of Assets)
FM4.31	Creditors payment period	This indicator reflects the average number of days taken for trade creditors to be paid. It is a useful indicator to measure the cash flow or liquidity position of a municipality. Total outstanding creditors is total amount owed (capital and operating expenditure) by the municipality. ((1) Trade Creditors Outstanding / (2) Credit purchases (operating and capital) X (3) Number of days in the reporting year to date

Ref	Key Performance Indicator	Definitions
LED3.31	Average number of days from the point of advertising to the letter of award per 80/20 procurement process	The average number of days from the point of advertising to the letter of award per 80/20 procurement process. An 80/20 procurement process refers to public procurement as per the terms of the Preferential Procurement Regulations in terms of the Preferential Procurement Policy Framework Act for bids where an 80/20 Broad-Based Black Economic Empowerment (B-BBEE) thresholds of between R30 000 and R50 million applies. This would apply to tenders awarded within the financial year, and where disputes to the outcome of the tender process were not raised. This does not apply to requests for quotations. (1) Sum of the number of days from the point of advertising a tender in terms of the 80/20 procurement process to the issuing of the letter of award/ (2) Total number of 80/20 tenders awarded as per the procurement process
MM1	Percentage expenditure on the preventative- & corrective planned maintenance budget of the whole of the municipality.	Percentage reflecting year to date spend on identified preventative- & corrective planned maintenance budget votes for the whole of the municipality. Maintenance as defined according to mSCOA and excludes emergency corrective maintenance. In-year reporting only for monitoring purposes with results drawn from mSCOA register within 5 days of period end. Year end results as reported in annual financial statements.
FM1.11	Total Capital Expenditure as a percentage of Total Capital Budget	This indicator measures the extent to which budgeted capital expenditure has been spent during the financial year. Capital expenditure is all costs incurred by the municipality for acquiring, upgrading, and renewing assets such as property, equipment, plants, buildings, intangible assets, investment property or any other assets meeting the definition of assets in terms of GRAP. In-year reporting only for monitoring purposes with results drawn from mSCOA register within 5 days of period end. Year end results as reported in annual financial statements. (1) Actual Capital Expenditure / (2) Budgeted Capital Expenditure
MMIDP9	Number of IDP community engagements held.	Bi-annual community engagements as per IDP Process Plan held in each of the 7 towns.
GG2.1	Percentage of ward committees that are functional (meet four times a year, are quorate, and have an action plan)	The percentage of ward committees that are deemed to be 'functional' out of all wards in the municipality. Functional is defined as- they have an agreed annual ward committee action plan by end of Q1 of the year under review and had at least four quorate meetings in that year. ((1) Functional ward committees) / (2) Total number of wards)
FD1.11	Percentage compliance with the required attendance time for structural firefighting incidents	Structural fire incidents are defined as incidents of fire outbreaks in habitable formal structures (buildings that have approved building plans) and habitable informal structures (informal residential dwellings where no approved building plans exist). The indicator measures the percentage of times that these incidents receive a response within the 14-minute standard. This measure of the attendance time is the difference between the time of call (the time an official call or notice is received at the official call or reporting centre) and the arrival

Ref	Key Performance Indicator	Definitions
		time (refers to the time captured for the first arriving firefighting response unit regardless from where dispatched or regardless of order of dispatch).
HS3.5	Percentage utilisation rate of community halls	The percentage of available hours across all community halls that are booked in a year. ((1) Sum of hours booked across all community halls in the period of assessment / (2) Sum of available hours for all community halls in the period of assessment)
HS3.6	Average number of library visits per library	The average number of library visits per library per year. This measures only municipality managed libraries. (1) Total number of library visits / (2) Count of municipal libraries
HS3.7	Percentage of municipal cemetery plots available	The number of burial plots currently available within active, municipal-owned cemeteries as a percentage of the total amount of burial plots in all municipal-owned cemeteries.  Based on the municipality's current policy provisions and used plots, the indicator measures what percentage of the total available cemetery capacity in active cemeteries is currently utilised. (1) Number of available municipal burial plots in active municipal cemeteries / (2) Total capacity of all burial plots in active municipal cemeteries
LED2.12	Percentage of the municipality's operating budget spent on indigent relief for free basic services	The amount municipal operating budget expended on free basic services to indigent households (R-value) as a percentage of the total operating budget of the municipality for the period. Free Basic Services are understood in terms of water, sanitation, electricity and waste removal services only.
LED1.21	Number of work opportunities created through Public Employment Programmes (incl. EPWP and other related employment programmes)	Simple count of the number of short-term work opportunities provided through the municipality by Public Employment Programmes such as Expanded Public Works Programme and other related infrastructure initiatives. The indicator tracks the number of unique work opportunities generated within the quarter, regardless of the duration. (1) Number of work opportunities provided by the municipality through the Expanded Public Works Programme + (2) the Number of work opportunities provided through other related infrastructure initiatives.
ComSoc42	Number of engagements with target groups with the implementation of social development programmes.	The indicator refers to the number of engagements with target groups for the implementation social developmental programmes and /or initiatives.
ComHS14	Number of housing opportunities provided per year.	A housing opportunity is incremental access to and or delivery of one of the following Housing products: Practically completed Subsidy Housing which provides a minimum 40m² house.
ComHS15	Number of Rental Stock transferred	Number of rental stock transferred to approved beneficiaries, using established criteria. Rental stock is being defined as subsidised houses constructed before 1994 (scheme houses)

Ref	Key Performance Indicator	Definitions
		and leased by the municipality to identified and approved beneficiaries.
ComLed20	Quarterly report on the Small Business Entrepreneurs Development Programme.	Quarterly report on the Small Business Entrepreneurs Development Programme.
ComLed4	Report on the implementation of action plans as identified in the Witzenberg LED Strategy.	The LED Strategy has identified several action plans to be implemented aimed at achieving economic development objectives. Quarterly reports are to be submitted indicating action plans as per the LED strategy and progress on completion of action plans.
LED3.11	Average time taken to finalise business license applications	The indicator measures the average number of working days a business owner can expected to wait from the date of submission of a complete business licence application to the date of outcome of licensing decision from the municipality. Business license applications refer to those businesses applying in terms of the Businesses Act of 1991. A 'complete application' refers to the point at which all of the required administrative information has been supplied, allowing the municipality to proceed with the processing. A 'finalised' application refers to an application where the municipality has taken a decision to approve or deny the application. An application is consider finalised at the point of the decision, regardless of the time between the decision and the communication of the application outcome. (1) Sum of the total working days per business application finalised/ (2) Number of business applications finalised
LED1.11	Percentage of total municipal operating expenditure spent on contracted services physically residing within the municipal area	This indicator measures the value of municipal operating expenditure that has been spent on payments to contracted organisations with a physical address within the municipal area as a percentage of the total operating expenditure on payments to all contracted organisations. Contracted service providers are inclusive of consultancy services and refer to services rendered by any entity outside of the municipality secured through a public procurement process. (1) R-value of operating expenditure on contracted services within the municipal area / (2) Total municipal operating expenditure on contracted services
